On December 2, Comcast received the honored company recognition at the annual Minnesota Keystone Program Luncheon, hosted by the Minneapolis Chamber of Commerce.

The Keystone Program honors companies that donate 2% or 5% of pre-tax earnings to help meet the needs of our communities and contribute to our area's outstanding quality of life.

Each company also participated in a live interview on stage with emcee Angela Davis, news anchor on WCCO-TV. The discussion included comments about our company's founder, Ralph Roberts, and his vision to build a company with a commitment to serve the communities where it does business.

"We are so honored to receive the award," said Bill Wright, region senior vice president. "I'm so proud of our Twin Cities team. Your dedication to supporting those in need is an inspiration not only for me, but for the community at large."
