---

UnitedHealthcare and organizers from KaBOOM! hosted a Design Day for children at Pillsbury United Communities' Oak Park Center last week. Children from the Center had the opportunity to put crayon to paper and draw their dream playgrounds, which will later become a reality. Elements from the children's drawings will be incorporated into the final design for the new community playground which will be built at the Center in September. Design Day was also the first meeting of the planning committee what will work for the next eight weeks to prepare for the playground's construction.
