At a red carpet gala on Saturday, October 13th, Jonathan Homes of MN received a Reggie Award from the Builders Association of the Twin Cities (BATC). The evening showcased the 45th annual Reggie Award winners and honored their partners (suppliers and sub-contractors) with the 23rd annual Trillium Awards.

“We are honored to receive such a prestigious award in only our second year of building,” said Nathan Fair, co-owner of Jonathan Homes. “We are fortunate to be able to use the talents of Hanson Builder’s design team and decided we would take a chance at entering to win the award this year. We never expected we would receive it with our first entry.”

Since 1968, BATC has presented the Reggie Award to builders for outstanding achievement in the design, quality and value of their homes as judged by their harshest critics, builders and professionals within the industry. All of the homes judged were on display to the public during the 2012 Parade of Homes Fall Showcase, and then the judges in each category met to compare notes and select the winner. Jonathan Homes two-story model located in Brooklyn Park’s distinctive Oxbow Creek West neighborhood, showcased their new white enameled kitchen with standard hardwood floors, granite countertops and stainless steel appliances. The model sold the first day on the market, but Jonathan Homes has other models available for purchase/viewing at all times.

With over 50 years combined experience in the home building and real estate business the managing partners started Jonathan Homes in 2010 with the philosophy of what kind of house would we build for our own family. They hired their first two employees Spring 2012 and launched the website in conjunction with the 2012 Parade of Homes Fall Showcase. Jonathan Homes offers move-in ready affordable homes with highly desirable features and upgrades. By partnering with Hanson Builders and their design team, Jonathan Homes has access to over 35 years of custom design experience. The WOW comes standard in each of our homes from the second you step through the front door.
